PERSONAL PROJECT

FLAPPY BIRD GAME

- The game is a side-scroller where the player controls a bird, attempting to fly between columns of green pipes without hitting them
- One could play the game endlessly without failure, which might be considered "perfect".
- To run the game, the following dependencies are used
  1. Python 2.7   2. Pygame 1.9.3
- Game is written in Python, which makes the code for neural network neat and easy to understand.
